

Senior ERP Consultant

Position Overview

The Senior ERP Consultant role assists consultants, senior and principal consultants in managing clients through their entire life-cycle—from the initial assessment of their needs through designing the solution that solves the client’s business challenges, developing the solution, and implementing the solution. Post implementation, you’ll provide ongoing application support for clients and will also help them continuously modify/enhance their configuration as their needs change.

Role Type: Individual Contributor

Requirements

Bachelor’s degree preferred

3 – 5+ years NetSuite work experience

Understanding of core NetSuite features, preferences, and ERP processing

Experience administrating or configuring NetSuite on multiple implementations.

Highly experienced in at least one key vertical market or NetSuite feature

Be able to execute all phases of a NetSuite implementation except for Development:
